

You are invited by the American Heart Association Committee on Scientific Sessions Program, based on your specific expertise, to be a part of the illustrious faculty for American Heart Association Scientific Sessions 2023, taking place in Philadelphia, PA on November 11-13, with Pre-Sessions Symposia & Early Career Day on November 10. **Travel to Philadelphia, PA is required** for your participation in this session.

Please review all session details below before accepting this invitation. By accepting you agree to follow the [Program Participant Guidelines](#).

Muhamed Saric has been invited to participate in session SA.CVS.322, titled "Interventional Echo and Transcatheter Procedures: A Multidisciplinary Look at Where We Are, Where We Are Heading, and Where We Should Be".

ALL TIMES LISTED ARE IN EASTERN TIME

Session Title: Interventional Echo and Transcatheter Procedures: A Multidisciplinary Look at Where We Are, Where We Are Heading, and Where We Should Be

Session Date: **Monday Nov 13, 2023 9:45 AM - 11:00 AM**

Session Description: This education session was planned by the Committee on Scientific Sessions Program. Transcatheter procedures for structural heart disease continue to grow exponentially. Interventional echocardiography is critical for the success of these procedures. This session will provide an overview of the national and international trends regarding interventional echocardiography as well. This multidisciplinary panel will also discuss the current status of transcatheter structural heart procedures and the changing face of the treatment for valvular heart disease.

Session Location: 109AB

Speaker notes *may* have been provided by the session planners to provide context for this session or other helpful information for session faculty. If you have any questions regarding this session, please email program.participant@heart.org

Speaker Notes: This session will have four 12 minute lectures and will end with a 27 minute discussion session and Q&A with the panel faculty and speakers and audience.

Session Type:	Cardiovascular Seminar
