WELCOME ADDRESS

On behalf of both the Organizing and Scientific Committees, I would like to invite you to attend our forthcoming State-of-the-Art 2014 Echocardiography Conference which will be held on April 22-24, 2014 at Marriott Hotel, Riyadh, Saudi Arabia.

The Prince Sultan Cardiac Center Echocardiography Department is one of the leading pioneers in the Cardiac Imaging field, with experience extending more than 25 years, and currently we are performing more 16,000 procedures per year.

This three-day conference offers a forum on echocardiography information across a broad range of topics such as the role of echocardiography in the new interventional cardiac procedures (mitral ring and mitral clip implantations, TAVI, Watchman Devices), 3-D echocardiography, tissue Doppler and speckle tracking, and, for the first time in the Kingdom, there will be a new Hands-on Workshop on the Wet Lab-Echo... Anatomical Correlation.

We look forward to seeing you at the conference.

Dr. Haytham El Shurafa
